## INTRODUCTION

Periplus 24 Ltd. is a ship equipment provider and a ship repairer company that is located in Budapest and has a depot in Csepel. Our goal is to give a chance for ships to bank up their supplies at the right place and time during their cruise and also to make repairs on the ships that do not need a dockyard.

The company started its operation on the Danube in 2008 as the main distributor of Witting GmbH from Duisburg. Later the company has become the only Hungarian partner and representative of Kadematic GmbH.

From 2014 our company co-operates in the reparation of the ships with Balatoni Hajózási Corporation, which means that repairs demanding longer planning - that cannot be done at once - will be performed by their engineers and mechanicals. From 2014 September we opened our new store opposite to the Mahart Passnave International Landing stage. Our colleagues kindly serve you at Belgrád rakpart 19.

## PARTNEREINK

### KADEMAC

We purchase our certified and examined life jackets from Kadematic GmbH as its only Hungarian distributor.

### WITTIG

We purchase big part of our certified products from Witting GmbH.

### BALATONI HAJÓZÁSI ZRT.

We co-operate with their employees to manage services that need faster and more complex work.

## PRODUCTS

### ROPES
